SUMMARY

A graduate of the Information Systems study program who is actively involved in various academic and non-academic activities. As a member of the academic community, actively works on various case studies assigned during lectures and contributes to knowledge through scientific articles and participation in research conducted by lecturers. Outside academic activities, actively participates in various communities that develop both soft and hard skills. Also actively contributes to various projects carried out both within courses, such as developing applications according to assigned case studies, and outside courses, such as actively contributing to improving the quality of the Generasi Baru Indonesia Jambi website.

EDUCATION

Information Systems, University of Jambi

2022 - Present

Actively contributes to ongoing lecture sessions and participates in competitions such as PEDAS (National Data Festival) 2025 and DIGDAYA X Hackathon 2026. In addition, actively participates in student communities such as the Information Systems Student Association and the University of Jambi English Club.

SMA Negeri 6 Kota Jambi

2019 - 2022

Active in teaching and learning activities during my studies. Finalist in the 2020 Provincial National Science Olympiad (OSN) and participant in the 2019 German Language Olympiad organized by the Goethe-Institut Indonesien.

ORGANIZATIONS

IT and Website Development Team, Generasi Baru Indonesia (GenBI) Jambi

2025-2026

Contributed to updating GenBI news so it stayed up-to-date and comfortable to read. In addition, developed the GenBI website to increase its reach through Search Engine Optimization (SEO) and semantic HTML elements. Used tools such as Google Search Console to further optimize the website. Kept the website secure and comfortable to use with a neat User Interface and User Experience.

Research and Technology Division, Information Systems Student Association

2025-2026

Actively maintained and updated the Information Systems Student Association website. Also actively participated in the division's work programs, such as serving on the Study Club committee and collaborating with other divisions to update the association's news.

Vice President, University of Jambi English Club

2024 - 2025

Actively learned and practiced English. As the vice president of the English Club, actively socialized with fellow members and served as a bridge between the University of Jambi Library, as the party organizing the community, and the English Club members.

Data and Research Member, University of Jambi Statistics Corner

2024-2025

Joined the University of Jambi Statistics Corner, an organization under the Jambi Provincial BPS. Served visitors who needed statistical guidance, such as helping provide information about the statistical data they needed through the official BPS website.

EXPERIENCE

Fullstack Developer, PT Affan Technology (Parto.id)

July - August 2025

During my internship at Parto.id, actively contributed to both backend and frontend work. During the internship, my team and I developed an attendance application integrated with Parto.id's central server using Golang (Go Gin) and React Native. Contributed more to React Native and provided some assistance on the backend.

Study Club Batch 4 Mentor, Information Systems Student Association

February 2025

- In February 2025, I had the opportunity to share my knowledge in Web Development with Information Systems students in semesters 2 and 4 so they could prepare themselves for this semester. This activity was quite challenging because I had to adjust my speaking style so the students could understand it well. On that occasion, I taught a class of 30 students for five days.
- The result was that the students who joined this Study Club were able to understand the website creation process well and gained further understanding to work on projects.

E-Ticket TNKS Research Member with Information Systems Lecturer

2024 - 2025

- On this occasion, I applied what I learned during my studies to a real-world case. TNKS collaborated with the University of Jambi to digitize ticket bookings at TNKS. In this role, I served as an assistant to the lead Web Developer and helped considerably with coding and interface design.

Publication Committee, Jambi International Conference on Engineering, Science, and Technology (JICEST)

October 2024

- Adjusted and maintained the JICEST participant registration website. In addition, updated the website so information could be conveyed well and participants could register more easily.

Publication Member, Digital Initiation Agrotourism Pematang Gajah, University of Jambi Village Innovation Program

October - December 2024

- Developed a website for the marketing needs of MSMEs and agrotourism in Pematang Gajah Village. The website was developed using WordPress.

SKILLS

Web Development and Mobile Development

- Proficient in building websites with the Laravel Framework, not only at a basic level but also at an advanced level, such as using Livewire in Laravel, with expertise in React and similar JavaScript frameworks.
- Able to develop mobile applications using React Native

Programming and Data Analysis

- Able to create programs for course requirements, such as data processing and analysis. Accustomed to using Python for Data Science and Analytics. In addition, able to use spreadsheets (Google Spreadsheet/MS Excel) and other languages such as R.

UI/UX and Search Engine Optimization

- Able to improve the quality of User Interface and User Experience so websites are neater, more comfortable, and easier to use.
- Experienced in optimizing Search Engine Optimization by applying semantic HTML and using Google Search Console.
- Able to evaluate and update website interfaces so information can be clearly conveyed to users.
